[1] Risk rating measures the degree of uncertainty that an investor can handle regarding fluctuations in the value of their portfolio. The amount of risk associated with a particular investment depends largely on your own personal circumstances including your time horizon, liquidity needs, portfolio size, income, investment knowledge and attitude toward price fluctuations. Investors should consult their financial advisor before making a decision as to whether this mutual fund is a suitable investment for them.

About the Lipper Awards
Dynamic Global Asset Allocation Fund, Series A was awarded the 2019 Lipper Fund Award in the Global Equity Balanced category for the five year period ending July 31, 2019 out of a total of 175 funds. The Lipper Fund Awards, granted annually, highlights funds and fund companies that have excelled in delivering consistently strong risk-adjusted performance relative to their peers. The Lipper Fund Awards are based on the Lipper Leader for Consistent Return rating, which is a style-adjusted performance measure calculated over 36, 60 and 120 months. The Fund with the highest Lipper Leader for Consistent Return (Effective Return) value in each eligible classification per award universe wins the Lipper Fund Award. For more information, see liprfundawards.com. Although Lipper makes reasonable efforts to ensure the accuracy and reliability of the data contained herein, the accuracy is not guaranteed by Lipper. The merit of the winners is based on objective, quantitative criteria. The influential and prestigious Lipper Fund Awards from Refinitiv are based on our Lipper Leaders Rating for Consistent Return. Individual classifications of three, five, and ten-year periods, as well as fund families with high average scores for the three-year period are also recognized. The awards are based on Lipper’s proprietary methodology, which can be viewed here. Performance for Dynamic Global Asset Allocation Fund, Series A for the period ended September 30, 2019 is as follows: 1.9% (1 year), 6.7% (3 years), 9.3% (5 years), and 9.9% (since inception May 2007). The corresponding Lipper Leader ratings of the fund for the period ending July 31, 2019 are as follows: N/A (1 year), 5 (3 years), 5 (5 years), and 5 (10 years).

Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. Please read the prospectus before investing.

The indicated rates of return are the historical annual compounded total returns including changes in units [share] value and reinvestment of all distributions [dividends] and do not take into account sales, redemption, distribution or optional charges or income taxes payable by any security holder that would have reduced returns. The rates of return are used only to illustrate the effects of the compound growth rate and are not intended to reflect future values of the mutual fund or returns on investment in the mutual fund. Investments in mutual funds are not guaranteed, their values change frequently and past performance may not be repeated.

R² is a measurement out of 100 that shows the extent to which a portfolio’s movements can be explained by the benchmark’s movements.

Standard deviation is a measure of volatility; it shows how broadly the Fund’s returns have varied over a given time period.

Active share measures the percentage a portfolio’s holdings that are different from those in its benchmark. Active share shows how the manager is actively exploiting opportunities that are not reflected in the index.
